### CAMPER COVENANT

The Central Pacific Conference welcomes you and your family to participate in our camping ministry program. Our staff and volunteers are trained and dedicated to providing each camper with a warm, welcoming and safe experience this summer. Each week we will work and play to build a community of faith, respect and trust. In addition, a successful camping program is dependent upon the cooperation of the camper. By signing this covenant statement, campers and parents/guardians agree to join this community.

**As a camper I commit to participate in planned programs, abide by site rules, take a turn with the chores of the camp and respect the emotional and physical safety of other members of the camp community. In addition, I agree to wear suitable clothing, which includes, but is not limited to, omitting clothing with inappropriate messages.**

**As a parent/guardian, I commit to support and prepare my camper for a successful camping experience. I understand that if my child is unable to complete the full week due to health issues or failure to fulfill the camper covenant, I must provide or pay for the full cost of transportation home.**

In addition, the American Camping Association and the United Church of Christ Insurance Board require us to enlist an acknowledgement that:

**I/my child will not possess and/or use alcohol or other controlled substances; possess weapons including but not restricted to: knives, firearms and fireworks; or possess and/or use tobacco products while at camp.**

Any camper or volunteer who chooses to ignore these expectations will be sent home immediately at the discretion of the Camp Director and risk future participation in camp sessions.

A parent or guardian of a camper who has completed sixth – twelfth grades is asked to read this letter and discuss it with their camper. Both parent or guardian and camper acknowledge with their signatures that they have read and understand what is expected of them.
